1850 TEXAS

Sketched by Helen Swenson-1981

It is hoped that this Index to 8800 TEXAS MARRIAGES will be a great instrument for the researcher. Much work went into this private collection made by a donor who requested that they stay anonymous.

Let it be noted that throughout both volumns of these marriages, you will find the same groom to the same bride but different dates of marriage and in some instantances, different counties. The reason being that the earliest date was probably a marriage bond. Many of the Texas early marriages were contracts. The following taken from a contract: (Extracted):

"wishing to unite ourselves in the bonds of Matrimony and there being no Priest in the Colony." "we mutually bind ourselves to each other in the sum of _____dollars to have our marriage celebrated by the Priest of this Colony or some other Priest authorized." Remember, Texas was under Mexican rule until 1845 when on December 29, 1845, was officially annexed to the United States.

It is advised that if the researcher using this index to these TEXAS MARRIAGES should find a marriage of interest, then that researcher should write to the county seat of that county and purchase a copy of the marriage record and or bond as there is much more information to be found but due to space of this big project, there just wasn't enough room to print all found on some of the marriage records.

You will find on some of the surnames there will be two surnames with a slash dividing the names, this is used in this publication to show questionable reading of the name. EXAMPLE: On page 6--BAKER/BABER, Joseph H. In the Bride's Index both names appear in the index.

Many of the original counties had their early court records destroyed or in some mysterious way, some have disappeared. The following counties are the ones which have marriages that appear in Volumn I & Volumn II of "8800 TEXAS MARRIAGES." The ones with a star (*) designate the records missing prior to 1850.

N/D;ND; N/R--No Date; No Return. (I have placed mostly ND, No Dates).

I.N.D.I.T.--"Indian Depredations In Texas" by J.W.Wilbarger

Wid.--Widow

As these marriages were typed from file cards and it was found that a Surname was out of alphabetical order, a star was placed by the name and if space allowed, the page number where the marriage could be found.

If there was no date, the year date of where the marriage appeared on the court records and or index was placed with ND(No Date).
